Important Information Regarding the Distribution of Products from Roche Products Limited

Dear Sir or Madam

In order to simplify routes of supply and ensure greater control and visibility of the supply chain from Roche through to patient, we have undertaken a comprehensive selection process to contract with a reduced number of wholesalers for the distribution of our Prescription Only Medicines.

As a result of this review, we have appointed AAH Pharmaceuticals Limited and UniChem Limited as our Wholesaler Business Partners for distribution of selected Prescription Only Medicines to hospital pharmacies, retail pharmacies and dispensing doctors throughout the UK from 15th January 2009.

Please find overleaf a list of products which will be available from Roche Products Limited only, not via the Wholesale Business Partners.

If you have any queries regarding this information or relating to ordering arrangements, please contact Customer Care on 0800 731 5711.

Yours faithfully
Roche Products Limited
